MARION, CRITTENDEN COUNTY, KENT

INCREASED ACTIVITY

The Crittenden Coal and Coke Company to Double Its Output--- A New Corporation.

Mr. C. J. Knight is mining a large |. The Crittenden Coal and Coke Co. doubling his output,

Another new shaft is going down at the Ada-Florence which will act as an air shaft. Capitalists from Muncie, Ind., are operating these mines now and Mr. J. M. Persons is their Supt.

Our Carrsville correspondent says The whistle at the Schoolfieldwork Tuesday. Fifty feet down the great shaft a drift has been begun,

Two new shafts are going down on the Mary Belle. Supt. Drescher is having them worked two shifts, and as soon as he strikes the spar, which will be at an early date, he expects to mine daily a large amount of No. 1 fluor spar from each shaft.

Mr. Leander White is having considerable work done on his farm, and in one shaft at 17 feet lead and fluor spar was struck. We can't say at this writing the actual width of the vein, but the indications are that it must be a good one.

The whistle blew for the first time at the Commodore last Saturday; the company have been erecting a very large amount of very fine machinery at their mine, for the last three months. Mr. Armstrong tells us that everything is working very satisfactory.

The Keystone Mining company struck a large mud pocket in their rein about three weeks ago, but they drove their level on through it some ten or fifteen feet, when their vein of lead and fluorspar came back as good as ever.

Director Abbott of the Schoolfield-Spees mines returned from Covington last week and at once began the erection of a house at the mines in order to give the hands an opportunity to be close to their work. So says our Carrsville correspondent.

At the Ada-Florence mine General Manager James M. Persons has had a new shaft sunk south of the main shaft They struck the main lead and drifted back to the main shaft, giving them fine air and putting this great property in splendid shape for deepening and drifting. The property is developing large quantities of among the best in the district

The Eclipse Mining company is a new mining company organized about velope the field .-- Sun. three weeks ago, and have already started work in Panther Holler. The company is composed of capitalists from Louisville. They purchased the McMican property some three weeks ago from Mr. Harry Watkins, for which they paid a large sum. They are now sinking two new shafts on the property. Mr. Jasper McBride, their foreman, was in town last Saturday and tells us that he has a good his shafts, and is mining it rapidly, and are also running a large amount of No. 1 fluorspar. Mr. McBride braced the Christian faith a few days expects to put a number of men to work next week to cut the famous Memphis vein on this property.

The Henderson News-Gleaner is indebted to Senator Hopkins for a copy of the "Fluor Spar Deposits of Southern Illinois." The book embodies the results obtained in a detailed study of the flour spar deposits principally in Gallatin, Pope and Hardin counties, the study having been taken in connection with the investigation of the lead and zinc deposits of ippi Valley region. The

amount of very fine carbonates on owned by Marion capitalists, will inthe Mann property. He is also put- crease its output 500 per cent, this ting up machinery for the purpose of fall. New mining cars will be placed in service, a new and powerful mine fan installed, and a boiler compressor and punching machine have been ordered at a heavy outlay. They will now take rank among the great mining companies of the common-wealth and their output will go up to 1,000,000 pounds daily and over and will be used in all the great Southern manufacturing centers. The compa-Spees mines announced ready for ny has received many flattering letters extolling the steam producing quality of its coal. H. H. Sayre is running north and south on the main the General Manager, C. S. Nunn, President, and J. W. Blue Secretary and Treasurer. Their mines, commissary and tipple are located at Davis, Ky., on the I. C, R. R., Evansville and Hopkinsville Division.

[From the Sturgis Herald.]

The West Kentucky Coal company are increasing their capacity very rapidly, and are now prepared to run about 2,000 tons of fine coal every Trusts

Col. W. A. Smith has just re ed from St. Louis, where went on business connected with the noted Bell mine property, which is now attracting the attention of capitalists from all parts of the country.

The West Kentucky coal company of this city now has six mines in operation on their property here, all of which are to be furnished with electri cal machinery for both lighting the mines and hauling the coal.

York the first of turned from New the week, where he had been in conference with Pierrepont Morgan. Mr. Morgan is too busy to come to Sturgis just now but we expect him the county who will not give his inlater in the season.

There was an officer of the great Pittsburg coal combine here this week that day. So everybody come to Maon important business connected with rion and see what can be done. the coal interests of this section. The gentleman was honest enough to admit that Sturgis was destined to very soon be a formidable rival of

A. D. Noe and Walter Higginson are taking options on coal rights underlying the farms east of Morganfield. The options call for \$10 an acre and hold good for twelve months. As soon as the options are secured good ore and is already taking rank Messrs. Noe and Higginson will endeavor to dispose of them to capitalists who will proceed at once to de-

Fortune Teller Dead.

Maria Markey, well known to all overs of the black art in this part of the United States, died at her home near Rodney, in Bells Mines precinct last week, aged 90 years. She was undoubtedly a woman of remarkable peculiarities and strange powers. In her character was mingled the supervein of very rich carbonate in one of stitious traits of the American Indian, with the ghostly witcheraft of the voodoo priests of Africa. She emprevious to her death. About a year or so ago she was married for the third time. She is supposed to have had a good deal of money, accumulated by her art of fortune telling.

Populist to Meet.

are requested to meet at Marion Monday, County Court day. The old guards are especially requested to

W. H. Brewn, Chairman, A. H. Cardin, Sec'y.

Special Announcement

We will remove to our our, uses to McConnell morrow. Come and see of grozeries, question are grounded as a solution of grozeries.

Organize Farmers Clubs.

ED. PRESS: I see there is a call for the farmers to meet at Marion on IS next county court day to organize a Farmers Club; and I do hope the farmers will turn out and organize a large, strong club. That is just what they will have to do to protect their own interests. This is a day of organization, every other great interest is well organized. So it certainly stands the farmers in hands to get up clubs and business clubs to hold their hands with other organiza-

The time has come for prompt action. We all know that farmers organizations have done great good in other sections; so why not organize? Every farmer in this county should come to Marion on the next county court day and join the County Chub.

Farmers must stand together and fight their own battles; no other interests are going to fight them for you. Good prices for all you grow depends on whether you are well organized. If you expect the other organizations to help you fight the great trusts and combinations, you must get up a strong organization of your own. Then the bankers a n d merchants, doctors and lawyers will come to your assistance. cause their success your prosperity. nless you can get other help ou can never down the

You will never get any help unless you get yourselves in proper shape. You must have a strong organization and stand by it. Any man who expects to work the soil for a living will refuse to go in to help his brother farmers to fight his battles should be drummed out of the

Now, brother farmers, I know your will is good why not come to Marion next county court day and learn all President White of the West Ken- you can from the State organizer as tucky Coal company of this city, re- he will be present and give you his views. It will not cost you a cent, as the State pays all expenses. I do not think there is a farmer within fluence to this move and the only way to do that right is to be present on

UP-TG-DATE FARMER.

Death of Mrs. G. L. Witherspoon.

Tuesday morning at her home, the Conroe Hotel, Mrs. G. L. Witherspoon died after an illness of several weeks from an attack of paralysis. At the time of her death she was 62 years, 1 month and 27 days old. She leaves a husband, one daughter, Mrs. Eugeuenia Chrisman, four grandchildren, two brothers and one sister.

Mrs. Witherspoon was born in of the time. She was a devout Chritian being a member of the Bapst church, for a number of years. Aer many kind words and deeds offnarity have often been of good ofer and solace to the needy and the eary.

A large concourse of browing friends and relatives folloed her re-
